

# Uptownes: The Quintessential Condominium

Not only is Geranium Homes offering a fabulous affordable alternative to condo apartment ownership, but the company is also providing prospective buyers with helpful ways to use the living spaces in its Uptownes at The Neighbourhoods of Cardinal Point community in Stouffville. The award-winning builder collaborated with Los Angeles-based Designer, Jo-Ann Capelaci, to create furnished floorplans and illustrations that are brimming with ideas for these spacious three-storey condominium urban-style townhomes. Uptownes prices start from the \$390's and every home includes a spacious rooftop terrace.

Geranium's Marketing Director Sue Webb Smith says, "Uptownes is a superb choice for those who love the low-maintenance condo lifestyle but prefer a ground-related home with a private garage over the nuisance of elevators and communal parking garages. We've already had buyers choose Uptownes for this very reason." Tipping the scales in favour of townhome living is the low monthly maintenance fees of just \$89. Uptownes offers condo ownership with all the conveniences

of an unbeatable location.

Buyers can choose from the Chicago Series of back-to-back and The Gooderham Series of stacked units. Uptownes has the living areas that buyers most value in a home. Plans range in size from 1,401 up to 1,639 sq. ft. and include a ground floor bonus recreation room that Capelaci shows can easily be a home office, an exercise or games room. "Jo-Ann is a wonderfully talented designer with a particular knack for space-planning. New home buyers are finding her illustrations extremely helpful in understanding the many lifestyle opportunities they can enjoy in an Uptownes home," Webb Smith says.
