

HUGE TURNOUT FOR HARD HAT TOUR

More than 80 guests attended when **Geranium Homes** hosted the third Hard Hat Tour at **Cardinal Point**, the company's master-planned ravine community, in Stouffville. Attendees gave a 100 per cent approval rating to the information, organization and value of seeing Geranium's construction methods and building material selections. The tours were conducted through one of the townhomes, completed to the insulation stage.

Tour includes the garage.

"Our Hard Hat Tours provide an excellent opportunity for Geranium's buyers and prospective purchasers to participate in an engaging and educational tour," said tour leader **Eric Reisman, Head of Construction and Project Manager**.

GREEN HOUSING TOUR

The OHBA/Enerquality Green Housing Tour for building industry participants visited four developments in York Region noted for their commitment and leadership to building green. On the tour were **Downtown Markham** by **Remington Group**; **King Country Estates** by **Aspen Ridge Homes**; **Harvest Hill** by **Minto**; and **Dreamfields** by **Rosehaven Homes**.

The Tour also included a visit to Kortright Centre for Conservation where the **Archetype Sustainable House** serves as a model of the next generation of green homes.
